

**Table S1**

Library name	Attempt to read	Readable clones	Readability (%)	After trimming
New born standard	4685	4454	95	4434
Adult standard	3262	2827	87	2757
Adult normalized	5184	4657	90	4188
Adult super normalized	2498	2233	89	1989
Sum	15627	14171	91	13368

Table S1

*Distribution of sequenced clones among different mouse glomerulus libraries.*

After removing vector sequence, sequences shorter than 100 nucleotides were excluded for further analysis.
