Supplementary movie 1.
TIRFM movie of micropatterned cells stably expressing EGFP-clathrin heavy chain treated with DMSO one minute after addition of marked Tfn.

Supplementary movie 2.
TIRFM movie of micropatterned cells stably expressing EGFP-clathrin heavy chain treated with DMSO one minute after addition of marked EGF.

Supplementary movie 3.
TIRFM movie of micropatterned cells stably expressing EGFP-clathrin heavy chain treated with CD one minute after addition of marked Tfn.

Supplementary movie 4.
TIRFM movie of micropatterned cells stably expressing EGFP-clathrin heavy chain treated with CD one minute after addition of marked EGF.
