Figure S7
Figure S7: Assessment of tumour type and BrdU levels in control and Min; AhCre Src$^{fl/fl}$ intestines. (A-P) Representative examples of the tumour types observed (columns) and BrdU scores assigned (rows) in the characterization of intestinal adenomas from control (Min) and Min; AhCre Src$^{fl/fl}$ mice presented in Figure 8 D-F. Scale bars: 100um.
