Supplemental Figure 3

The oligomeric states of MICU1 proteins. Sedimentation velocity experiment of the MICU1-xtal molecules in the absence (A) or presence (B) of Ca$^{2+}$. Two different concentrations of MICU1-xtal samples were applied in the experiment. Inset, 1 µg of MICU1-xtal loaded on a 13% SDS-PAGE. (C) Sedimentation velocity experiment of the MICU1-xtal-deltaC molecules in the absence or presence of Ca$^{2+}$. Inset, 1 µg of MICU1-xtal-deltaC loaded on a 13% SDS-PAGE.
