Corrigendum

Mitochondrial genome inheritance and replacement in the human germline

Don P Wolf®, Tomonari Hayama & Shoukhrat Mitalipov®

Correction to: The EMBO Journal (2017) 36: 2177–2181. DOI 10.15252/embj.201797606 | Published online 5 July 2017

The conflict of interest section contains information that is incorrect. The correct conflict of interest statement is as follows:

Oregon Health & Science University has the patent entitled “Method for mitochondrial DNA replacement in oocytes”. SM is an inventor of the patent. SM is also a founder and CEO of Mitogenome Therapeutics, Inc. DPW and TH declare that they have no conflict of interest.
